Magnetic Skirts

Ideal for any non-skirted self-storing leaves,
including 48" trestle tables.

(upcharge)

No skirt — big gap!

Strong magnets on insert skirt
attach to magnets on bottom of leaf

Magnetic skirt, in place

The convenience of leaf storage can mean gaping holes in the skirting when the leaves are in place. But thanks to our new magnetic skirting, gaps are a thing of the past!

The beautiful lines of your table are maintained quickly and conveniently with powerful magnets that won't let you down, regardless of how many leaves you add.

Butterfly Leaf

Available on Legged & Trestle Tables

All butterfly leaves are 16" or 18"

Single Butterfly Leaf
available on Legged tables

On legged tables, butterfly leaf is only available on sizes 42" x 42" or 60" and 48" x 48" or 60"

Double Butterfly Leaves
available on Trestle tables

Butterfly leaves are only available in the following trestle table sizes: 42" x 66" or 72" and 48" x 66" or 72"

Care of SOLID WOOD TABLES

- Maintain a humidity-controlled environment. Your home should be kept in the 40-50% humidity range to prevent warping and cracking.
- Keep table out of direct sunlight or fluorescent fixtures that contain ultraviolet rays.
- Place furniture away from direct heat sources such as furnace ducts, radiators and fireplaces.
- Store table leaves in or close to the table to maintain consistent environmental conditions.
- Avoid placing sharp objects that could scratch the table directly on the table.
- Do not store furniture in attics or basements where the environment is not consistent.
- Dust table often and carefully with a soft cloth following the grain pattern to remove abrasive dust particles.
- Periodically clean the table with mild non-alkaline soap using a soft sponge or cloth.
- Avoid polish that contains silicones.
(Ask your retailer to recommend a polish.)

All hardwood contains variations in color and grain. These natural characteristics give each piece of solid wood furniture its unique charm, and although the finishing process is identical, no two pieces are the same.

Most hardwoods are open-grained causing solid wood furniture to expand and contract with changes in humidity and temperature even after the finish is applied. Care in controlling the furniture's environment will help minimize the minor cracking and warping that is a natural part of the wood's character. With proper care, your solid wood furniture will provide a lifetime of enjoyment and can be passed on to future generations.

Northern Woodcraft Products is located in the heartland of Indiana's time-preserved region of hand-crafted trades. For generations, woodworkers here have passed on their traditional values, construction methods and ability to bring out the intrinsic beauty of native woods. With loving care and a minimum of regular maintenance, our heirloom quality craftsmanship assures you of a table, bench or writing desk that will weather a lifetime of use for years to come.
