

TROYER
Design
COMPANY

— 2 0 2 5 —

Our goal at Troyer Design Company is to build high quality dining room furniture. We add interlocking glue joints on our 1 1/2" – 1 3/4" solid tops. Any solid tops that are thicker than 1 1/2" include a v-stabilizer bar, shown on page 3.

All Troyer Design Company table tops are manufactured in house, giving us the ability to move orders through production much quicker and helping keep our lead times down. This also means that custom size table tops are no problem!

Check out the information on page 3 regarding our slide systems for leaf tables.

WE BUILD CUSTOM SIZES & PIECES including:

Dining Tables | Butcher Block Tops
Coffee Tables | Decorative Beams
End Tables | Wooden Countertops
Benches | Open Shelving
Bed Frames | Sliding Barn Doors
Fireplace Mantles | Stair Treads
...and Much More!

Wood is a natural commodity and, consequently, may act in ways outside our control. Every piece of wood has unique characteristics and variations, giving each piece of furniture a distinctive look. The building process may be the same, but each item is, (like a fingerprint,) one-of-a-kind.

All knots on rustic furniture will be filled unless there is a request for open knots. All furniture is available in our standard species. Call for other species.

The open grain of most hardwoods will result in some expanding and contracting upon exposure to changes in temperature as well as humidity, even with a protective finish. These fluxuations may cause the wood to crack or have surface checks.

This is a normal reaction and is not considered a flaw.

To minimize its effects of on hardwood furniture, humidity should be in the 35-40% range. Heating/cooling effects on wood can be controlled by keeping it away from any source of heating/cooling. NOTE: Do not store in attic/basement or in direct sunlight/fluorescent light.

Your business is appreciated and we look forward to working with you soon! – Matt Troyer, owner

1611 3rd Rd.

It's all in the DETAILS...

*Troyer Design Company is about
both "design" and "detail."*

We INVITE you to look at the DETAILS!

Our tables with 1½" - 1¾" solid tops have an interlocking glue joint providing a stronger table top.

Live Edge – every piece has its own natural/unique look.

*V-Stabilizer
bar on all
solid tops
1½" and
thicker.*

*Get that rustic look and feel with our
Rough Sawn Rustic (real saw marks) –
available on most furniture. Our Rough
Sawn specie is Brown Maple.*

*On our leaf tables, we use very high quality wooden
table slides with a bigger gear that allow the leaves
to slide easier than any others on the market. There
is no need to have a person at each end to pull the
table apart when inserting leaves.*

*Standard wood species: Rustic Oak, Rustic Cherry, Wormy Maple, Oak, Sap Cherry, Rustic Hickory, Brown Maple, Cherry, Hickory, Elm, Rustic QSWO, Rustic Walnut, QSWO, White Oak, Rustic White Oak.
(Contact us for other wood species availability.)*

Live Edge species: Rustic Red Oak, Red Oak, Rustic Cherry, Cherry, Wormy Maple, Rustic Hickory, Hickory, Brown Maple, Rustic Walnut, and Rustic White Oak.

Most furniture is available in Rough Sawn Rustic (real saw marks) or Non-Rustic.

We build custom pieces and sizes, call for prices.

Epoxy River Run tables available.

48" wide tables available.

Ordering Information

TROYER DESIGN CO.

This catalog offers our standard features, but we will also build custom tables to fit your needs. Levelers are standard on all trestle and pedestal bases. Tack glides are standard on leg tables and benches. All tables are standard with self-store; unless it is listed as not available. Round leaf tables are standard with latches.

The following information is needed to complete your order. Please specify unless standard.

- Table Description
 - Size/Dimensions
 - Number of Leaves or Solid Top
 - Table Top Shape
 - Edge Style
 - Wood Specie
 - Top Thickness (1", 1¼", 1½", 1¾")
 - Live Edge
 - Rough Sawn
- NOTE: Live edge leaf tables will have a live edge on both ends of the table.

Live Edge Standard

Troyer Design Company
has unlimited slabs
available, with many
sizes to choose from.

We cut all our Live Edge
slabs with our own
70 inch saw mill.

(Sometimes we get
logs in that are wider
than our saw mill can
cut.) We also kiln dry
ALL our own slabs.

See page 82 for
slab sizes.

Need a special *Live Edge*? Troyer Design Company will glue up Live Edge slabs to any length and width. If you need a table top, bar top, counter top, coffee table top or open shelves built to your specific size, just give us a call.

We also offer “pour over” epoxy on tables. It’s GREAT on rough sawn tables... the saw marks are there, but the table top is PERFECTLY smooth!

The special “bark on” Live Edge can only be done with our “pour over” epoxy process. This keeps the texture and integrity of natural bark, but creates a clean stable edge for a table that is truly a one-of-a-kind work of art.

Check out page 82 to see our steel bases and solid tops. Most of our tables shown in this catalog are available with Live Edge and with all our standard wood species.

We LOVE to bring the Beauty of Nature into Your Home!
